

Professional Summary

Computer Science graduate with a strong foundation in Python, SQL, and Data Analytics. Currently expanding my expertise in Machine Learning and Generative AI through hands-on projects and continuous learning. Experienced in building backend applications using FastAPI and working with libraries such as Pandas, NumPy, and Scikit-learn. Passionate about developing AI-powered solutions, solving real-world problems, and continuously improving technical skills. Seeking an opportunity to contribute as an AI/ML, Python, or Data Analytics professional while growing in a collaborative environment.

Skills

• Programming Languages: Python, Java • Machine Learning & AI: Scikit-learn, ML, GenAI, Prompt Engineering • Backend Development: FastAPI, REST API • Data Analysis: Pandas, NumPy, Data Cleaning, Data Preprocessing • Development Tools: Visual Studio Code, Google Colab, Jupyter Notebook • Cybersecurity: Cybersecurity Fundamentals, Ethical Hacking Basics	• Database: MySQL • Data Visualisation: Matplotlib • Version Control: Git, GitHub • Web Technologies: HTML, CSS
---	---

Education

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE AND ENGINEERING – 7.04 CGPA Kalasalingam Academy of Research and Education, Virudhunagar, Tamil Nadu.	2021-2025
HIGHER SECONDARY EDUCATION – 80% Achyuta Matric Higher Secondary School, Dindigul, Tamil Nadu.	2020-2021
SECONDARY SCHOOL LEAVING CERTIFICATE – 72% s.s.m Matric Higher Secondary School, Dindigul, Tamil Nadu.	2018-2019

Work Experience

Software Development & Support Intern Regami Solutions Chennai, Tamil Nadu, India	June 2023 - July 2023
• Assisted in software development and application support activities. • Participated in debugging, testing, and maintaining software applications. • Worked with the development team to understand the software development lifecycle (SDLC).	
Customer Support Associate Sutherland Global Services Chennai, Tamil Nadu, India	OCT 2025 - PRESENT
• Provided customer support through live chat for Amazon customers, resolving order, account. • Strengthened analytical thinking, problem-solving, and time management skills in a customer support environment.	

Projects

Deepfake Detection in Medical Images using VAE-GAN

2023 - 2024

Technologies: Python, TensorFlow, Keras, OpenCV, NumPy, VAE-GAN, PSO

- Developed a deep learning framework to identify manipulated medical images.
- Preprocessed and prepared medical image datasets for model training.
- Implemented a VAE-GAN architecture to improve deepfake detection performance.

Smart Habit Tracker

2024 - 2025

Technologies: Java, File Handling, OOP, ArrayList

- Developed a Java console application to track and manage daily habits.
- Implemented CRUD operations for creating, updating, and deleting habit records.
- Used Java File Handling to store and retrieve habit information.

Personal Portfolio Website

2024 - 2025

Technologies: HTML, CSS, GitHub

- Developed a responsive personal portfolio website to showcase projects, skills, and achievements.
- Organised project details, technical skills, education, and contact information in a structured layout.
- Deployed the portfolio using GitHub Pages for easy online access.

AI Recruitment Recommendation System

2025 - 2026

Technologies: Python, FastAPI, Pandas, Scikit-learn, CountVectorizer, Cosine Similarity, LLM

- Developed an AI-powered recruitment recommendation system to match candidates with job requirements.
- Built REST APIs using FastAPI to manage candidate, company, and interview data
- Processed and merged recruitment datasets using Pandas for candidate analysis.
- Integrated an LLM to generate human-readable explanations for candidate recommendations.

Heart Disease Prediction using Machine Learning

2025 - 2026

Technologies: Python, Pandas, NumPy, Scikit-learn, Matplotlib

- Developed a machine learning model to predict the likelihood of heart disease using patient health data.
- Performed data cleaning, preprocessing, and exploratory data analysis using Pandas and NumPy.
- Visualised data patterns and feature relationships using Matplotlib.
- Assessed model performance using evaluation metrics to improve prediction accuracy

Achievements and Certifications

- Certified as an **Information Security Manager by Udemy**
 - Certified as an **Ethical Hacker by CISCO**
 - Certification on **Cyber Security Essentials by CISCO**
 - Certification on **Database Foundations by Oracle**
 - Certification on **Java Complete Course by Udemy**
 - Certification on **Cloud Infrastructure 2023 Data Science Professional by Oracle**
-
